

OXYGEN & RESPIRATORS POLICY

Approved By Board of Public Works and Safety on:

June 13, 2014

Amended By Board of Public Works and Safety on:

Oxygen

An individual with a disability may travel on Valparaiso Transit vehicles with a portable oxygen supply, consistent with applicable Department of Transportation rules on the transportation of hazardous material (49 CFR subtitle B, chapter 1, subchapter C). The unit or canister must be secured firmly to the wheel chair, or strapped/tied down where it will not to be a projectile in case of sudden stop or accident.

Respirator

An individual with a disability may travel on Valparaiso Transit vehicles with a respirator.

Note: Riders are responsible for keeping oxygen tanks and respirators with them at all times. The bus driver will not control any oxygen tank or respirator mechanisms.
